

Wet System

Washing and disinfection system

FEATURES

This system is the best solution for a professional and efficient cleaning of floors, walls and ceilings

When using Wet System, mops remain hanging to the frame when being rinsed and pressed, no more bending is necessary and any contact with dirt and chemical solutions is avoided.

With Wet System, you work faster and in a more ergonomic and efficient way in comparison with traditional systems

USE

Vertical position

Rotate the handle

Press down the frame to close it

Push the yellow button to open the frame

Wet System
